ANSWER PACK

*1st – 5th March
2021*

Maths Answers

Lesson 1

Recognise 2D and 3D shapes

1 Match the shape to its name.

The shapes and their names are:

- Green square
- Pink circle
- Teal rectangle
- Purple triangle
- Yellow pentagon
- Red hexagon

The labels in boxes are:

- circle
- hexagon
- pentagon
- square
- triangle
- rectangle

The connections are as follows:

- Green square connects to square
- Pink circle connects to circle
- Teal rectangle connects to rectangle
- Purple triangle connects to triangle
- Yellow pentagon connects to pentagon
- Red hexagon connects to hexagon

Maths Answers- continued

Lesson 1

2 Match the shape to its name.

cuboid

triangular
prism

cube

pyramid

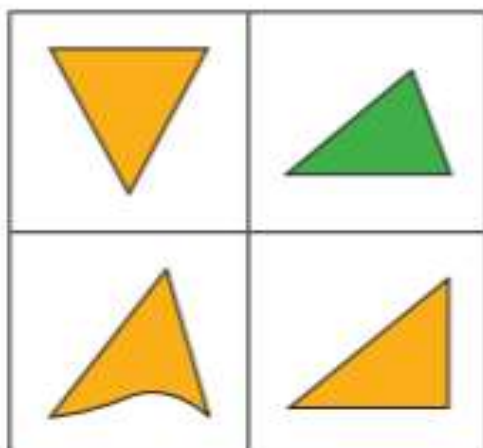

sphere

cylinder

Maths Answers- continued

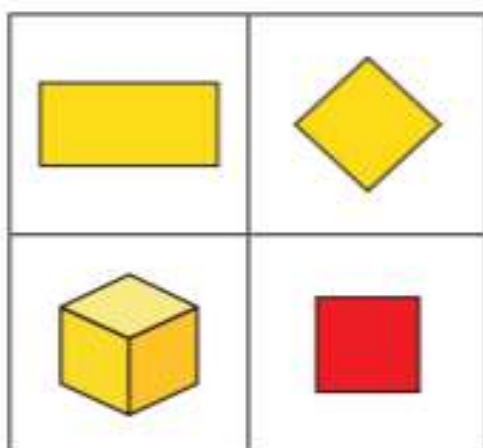

Lesson 1

- 3 Which shape is the odd one out?
Tick your answer. *Various answers.*

Why did you choose this shape?

- 4 Which shape is the odd one out?
Tick your answer. *Various answers.*

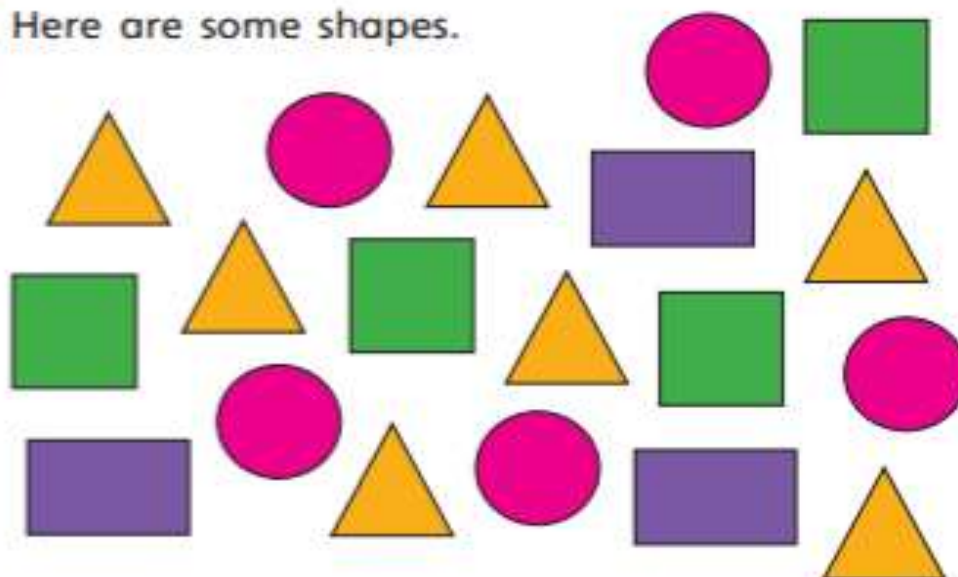

Compare answers with a partner.

Maths Answers- continued

Lesson 1

5 Here are some shapes.

Complete the tally chart to show the number of each shape.

Shape	Tally	Total
triangle	II	7
circle		5
square		4
rectangle		3

Work with a partner.

Find shapes around your classroom and complete your own tally chart.

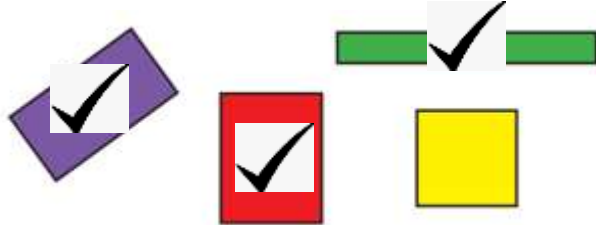

Maths Answers - Lesson 1

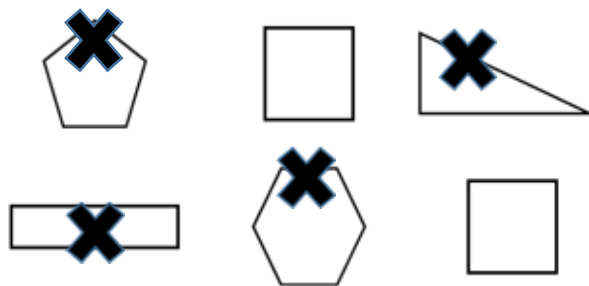

Red Task

1. A

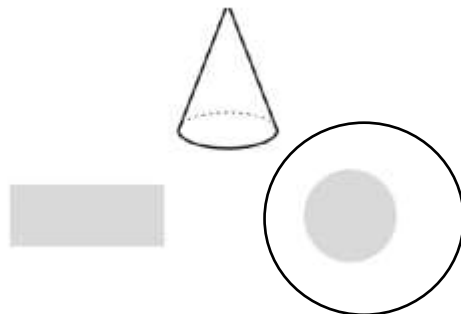

2.

3.

4.

Maths Answers-Lesson 1

Gold Task

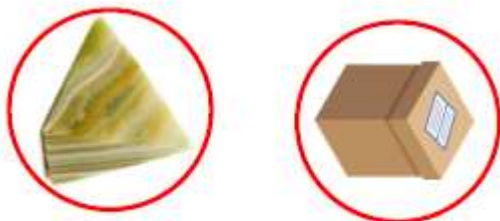

1. Triangle and rectangle
2. A (cuboid) E (cube)
3. False- the first shape is a cube as all of the faces are the same shape, square.
4. A= circle
B= sphere
C= cuboid
D= triangle

Deepen the moment

1. All three could make this print because if we made a net of each of the shapes the net would include a rectangle shape.

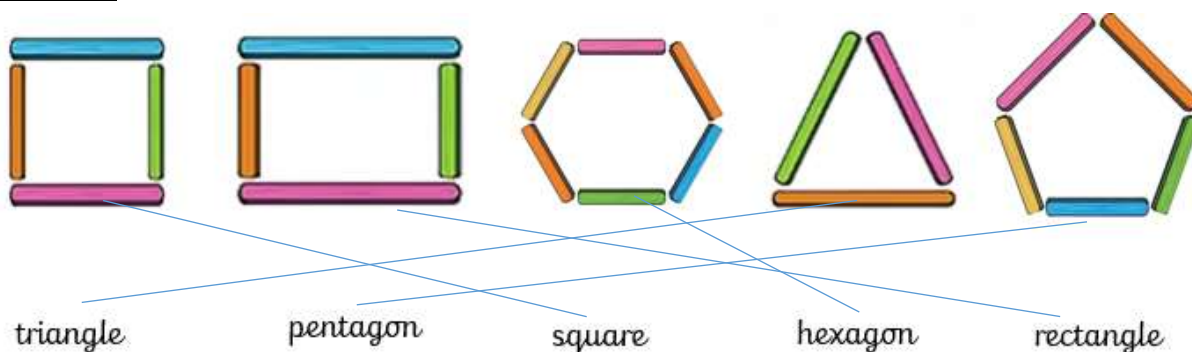

2. Both 3d shapes would have a square in the net.

Maths Answers- Lesson 2 (Blue task is practical)

Red Task

Gold Task

1. Possible shapes that could be made with 10 straws
 - square
 - rectangle
 - rhombus
 - diamond
 - pentagon
 - hexagon
 - heptagon
 - octagon
 - nonagon
 - decagon

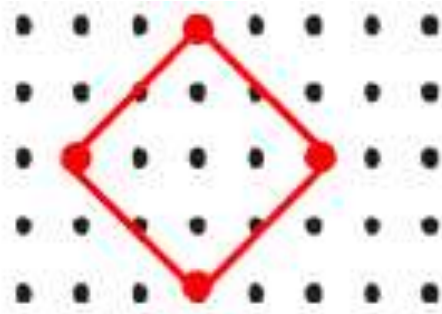

2. No- because the sides on a circle are curved not straight.
3. Possible 4 sided shapes
 - square
 - rectangle
 - rhombus
 - diamond
 - parallelogram

4. 10 sided shape- decagon

Maths Lesson 2 answers - continued

Deepen the moment

1. Evan is correct

2. Evan is incorrect-various answers, for example: Adding 3 more dots would create a shape with 5 vertices (pentagon). A rectangle needs 4 dots (vertices) in total.

Maths Answers

Lesson 3

Count sides on 2D shapes

White
Rose
Maths

1 Complete the sentences to describe the shapes.

a)

A pentagon has sides.

b)

A triangle has sides.

c)

A square has sides.

d)

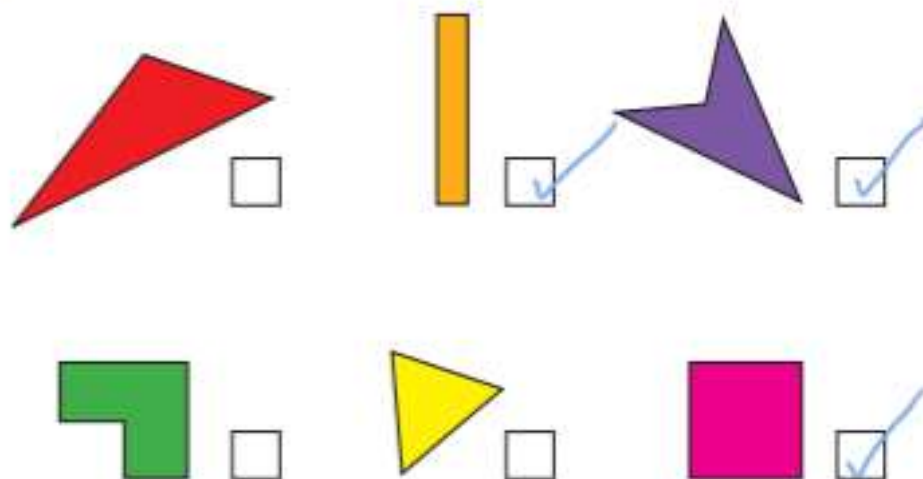

A hexagon has sides.

Maths Answers

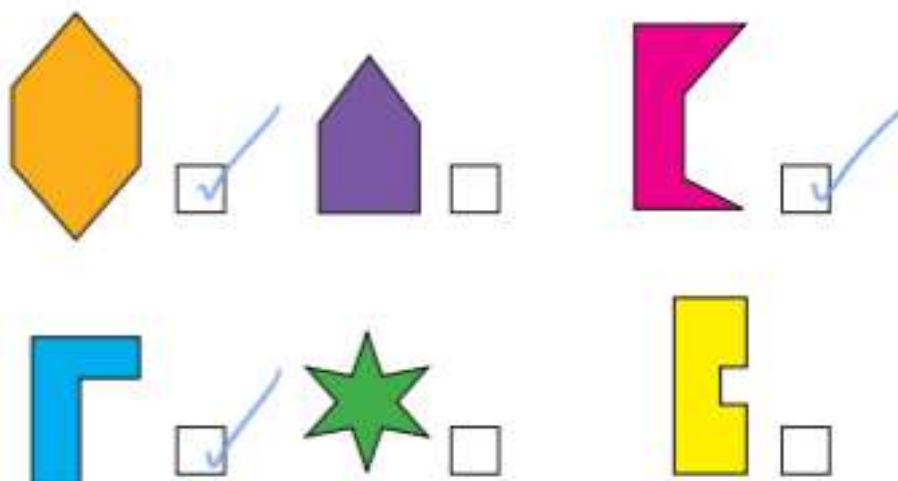

Lesson 3 - continued

2 Tick the 4-sided shapes.

Did your partner tick the same shapes?

3 Tick the 6-sided shapes.

Compare answers with a partner.

Maths Answers

Lesson 3 - continued

4 Complete the table.

Name	Shape	Number of sides
rectangle		4
triangle		3
pentagon		5
hexagon		6
square		4
octagon		8
hexagon		6

Maths Answers

Lesson 3-continued

5

This shape
is a triangle.

Is Amir correct? no

How do you know?

6

Use 15 lolly sticks to make three shapes.

Draw your shapes.

e.g.

Did your partner make the same shapes?

What happens if you use more or fewer
lolly sticks?

Maths Answers

Lesson 3

Red Task

1. C and circle
2. No – they are all triangles.
3. Various answers – any 2d shape other than a triangle.

4.

Shape	Straight Sides	Curved Sides
A. 	0	1
B. 	4	0

Gold Task

1. Joe is incorrect but they are hexagons not octagons, octagons have 8 sides.
2. C and D – they are both semi circles.
3. A- because it is a triangle and has 3 sides and the other shapes are pentagons and have 5 sides.
4. 2 octagons have the most number of sides. 2 octagons = 16 sides, 2 hexagons = 12 sides, 5 semi circles = 10 sides, 3 triangles = 9 sides.

Deepen the moment

1. Seth is incorrect. Triangles have 3 straight sides, the shape in the middle has 2 straight sides and 1 curved side.

Maths Answers

Lesson 4

Count vertices on 2D shapes

1 Complete the sentences to describe the shapes.

a)

A pentagon has vertices.

b)

A triangle has vertices.

c)

A square has vertices.

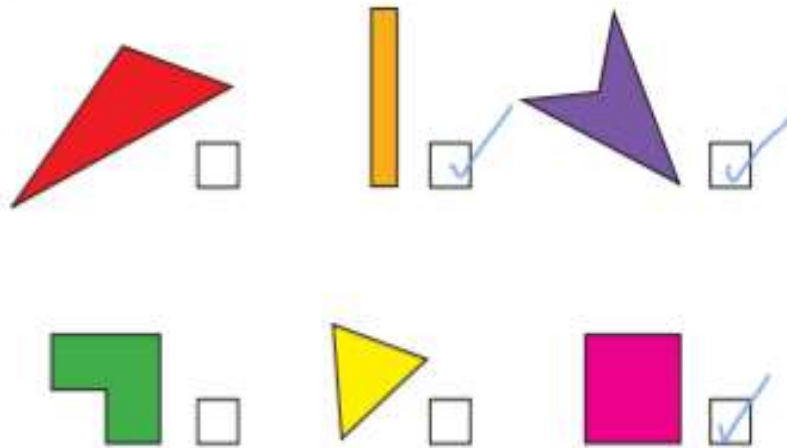

d)

A hexagon has vertices.

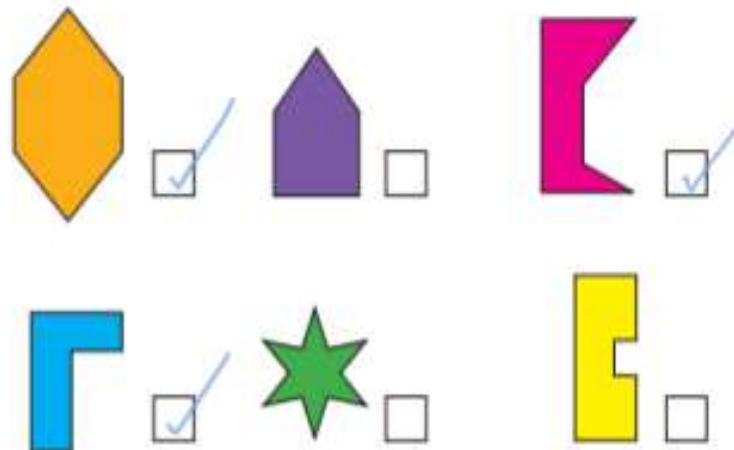

Maths Answers Lesson 4 - continued

2 Tick the shapes with 4 vertices.

Compare answers with a partner.

3 Tick the shapes with 6 vertices.

Talk to a partner about your answers.

Maths Answers Lesson 4 - continued

4 How many vertices does each shape have?

How did you count the vertices?

Maths Answers Lesson 4 - continued

5

My shape has more vertices than a triangle, but fewer than a hexagon.

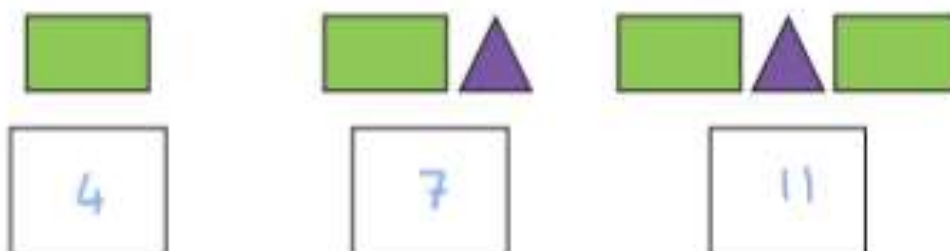

What shape could Ron have? e.g. square

Compare answers with a partner.

6

Rosie is making a pattern out of shapes.

a) How many vertices are in each term of her pattern?

b) What do you notice?

c) How many vertices will the next term have?

d) Create your own pattern with shapes.

Count the number of vertices in each term.

Maths Answers Lesson 4 - continued

Red Task

1. 4, 4, rectangle;
5, 5, pentagon
2. 6, 6, hexagon
3, 3, triangle
3. Isaac has $3 + 4 + 0 = 7$ vertices
Joshua has $5 + 3 + 4 = 12$
vertices. Joshua has the most
number of vertices.

Gold Task

1. Picture of a hexagon, 6, 6, hexagon
Picture of octagon, 8, 8, octagon
2. Octagon
3. B
4. Cian=13
Jal = 12

Deepen the moment

Kim is incorrect. 2 hexagons = 12 vertices in total, plus 1 triangle = 3 vertices. $12 + 3 = 15$ altogether.

Maths Lesson 5 - Answers

1. 15
2. 13
3. 78
4. 7
5. 27
6. 56
7. 8
8. 71
9. 8
10. 52
11. 8
12. 30
13. 10
14. 10
15. 24
16. 9

Deepen the moment

<u>Question Number</u>	<u>Question</u>	<u>Related fact(s)</u>
14	$2 \times 5 = 10$	$5 \times 2 = 10$ $10 \div 2 = 5$ $10 \div 5 = 2$
15	$4 \times 6 = 24$	$6 \times 4 = 24$ $24 \div 6 = 4$ $24 \div 4 = 6$
16	$18 \div 2 = 9$	$18 \div 9 = 2$ $2 \times 9 = 18$ $9 \times 2 = 18$

English Answers – Lesson 1

1. A bike with **two wheels** is the best kind of bike!
2. The park.
3. Fall off the bike.
4. Any one of the following:
Fast, faster, flying
5. To ride a bike.
6. Like a bird

English Answers - Lesson 2

Can you create expanded noun phrases to match these pictures?

1. Child's own answers
-

Reading for Productivity Answers

Reading for Productivity Lesson 1 – Music

1. Music and dance
2. Any **two** of the following:
 - Weddings
 - Birthdays
 - Baptisms
 - Holidays
 - Festivals
3. Percussion
4. Hit with the hand
5. False
6. To be liked or admired.

Reading for Productivity lesson 2- Fairtrade

1. Food and clothes
2. 120 countries
3. Crops can be regrown year, after year.
4. Buy
5. False

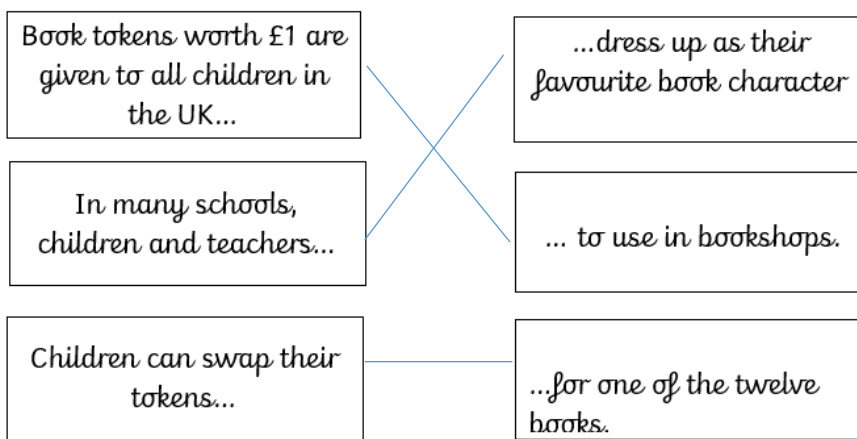

Reading for Productivity Lesson 3 - Science

1. Wood, Stone, Oil or Wool
2. Wood
3. Able to withstand wear, pressure or damage. Very hard wearing
4. Possible answers: water bottles, toys, cups, packaging
5. By melting limestone and sand at a high temperature
6. Recycled

Reading for Productivity Lesson 4 - World Book Day

1. Authors and reading
- 2.

3. A person or an animal in a book
4. Specially written
5. 1995

Reading for Productivity lesson 5 - Art

1. Moscow, Russia.
2. Claude Monet and how he used colour in his paintings.
3. 1922
4. Child's own answers- starting with a dot suggests anyone can be artistic and interpret art in their own way.
