Year 5: Remote Learning Schedule

Year 5 Knowledge Organiser: Fractions

PONTEFRACT

Maths lesson 1: To add mixed numbers (Main, Blue Task)

PONTEFRACT

Maths Lesson 1: To add mixed numbers- Red Task.

If you are finding the main task too difficult, have a go at the red task below.

Maths Lesson 1: To add mixed numbers - Gold Task.

If you are finding the main, blue task too easy, or have whizzed through it quite quickly, challenge yourself and have a go at the gold task below.

Maths lesson 2: To subtract fractions (Main, Blue Task)

PONTEFRACT

- b) Can you spot any patterns? Talk to a partner about it.
- c) What calculation would come next in each set?

What could the missing numerators be?

Give six different possibilities.

Complete the addition pyramids.

c) What fraction is equivalent to both of the fractions at the top of the pyramids?

Maths Lesson 2: To subtract fractions - Red Task.

If you are finding the main task too difficult, have a go at the red task below.

Varied Fluency

Maths Lesson 2: To subtract fractions - Gold Task.

If you are finding the main, blue task too easy, or have whizzed through it quite quickly, challenge yourself and have a go at the gold task below.

Varied Fluency

Maths lesson 3: To subtract mixed numbers (Main, Blue Task)

Find three different ways to complete the calculation.

PONTEFRACT ACADEMIES TRUST

Are there any other ways to complete this calculation?

Three children take part in throwing competitions. Here is the table of results.

	Javelin	Shot Put	Discus
Dexter	15 <mark>1</mark> m	7 <u>5</u> m	
Amir	13 <mark>3</mark> m		12 <mark>7</mark> m
Annie		9 m	11 <u>5</u> m

Use the clues to complete the table.

- Annie's javelin throw is $\frac{11}{12}$ m less than Dexter's.
- Amir's shot put throw is $\frac{3}{4}$ m less than Annie's.
- Dexter's discus throw is $\frac{1}{2}$ m less than Amir's

Maths Lesson 3: To subtract mixed numbers - Red Task.

If you are finding the main task too difficult, have a go at the red task below.

Varied Fluency

Maths Lesson 3: To subtract mixed numbers - Gold Task.

If you are finding the main, blue task too easy, or have whizzed through it quite quickly, challenge yourself and have a go at the gold task below.

Varied Fluency 7a. Which calculation gives the answer below? **3** $\frac{4}{6} - \frac{2}{4}$ **3** $\frac{5}{6} - \frac{3}{4}$ **3** $\frac{4}{6} - \frac{1}{4}$ VF 8a. Find the difference between the fractions. Β. Write your answers as mixed numbers in their simplest form. VF 9a. Tick the calculation with the greatest answer. A. $6\frac{4}{5} - \frac{1}{3}$ **B.** $6\frac{7}{10}-\frac{2}{3}$

PONTEFRACT ACADEMIES TRUST

Maths lesson 4: To subtract mixed numbers by breaking the whole (Main, Blue Task)

Maths Lesson 4: To subtract mixed numbers by breaking the whole -Red Task.

If you are finding the main task too difficult, have a go at the red task below.

Varied Fluency

Maths lesson 4: To subtract fractions by breaking the whole - Gold Task.

If you are finding the main, blue task too easy, or have whizzed through it quite quickly, challenge yourself and have a go at the gold task below.

Varied Fluency

Maths Lesson 4: Deepen the moment

0 0 0 0

Maths Lesson 5: Arithmetic Test Paper 5.

You have 30 minutes to complete your arithmetic test; set a timer so you know how much time is remaining. Remember to highlight symbols and to show your working out. When you have finished, use the answer sheet to mark your test and record your score out of 32. If you have any corrections, do these again in a different colour beside your previous answer.

telegraphically		

Use the first column example words to go over the letters and practise your handwriting joins. Can you write sentences for each of your spellings?

PONTEFRACT

<u> Knowledge Organiser – Year 5</u>

English – Writing a narrative based on evacuation.

Context: To write a narrative using previous historical knowledge about evacuation in World War 2. Using ideas and thoughts from the canon text 'Goodnight Mister Tom'

Year 5 VIPs for writing a narrative

- Third person is the use of the pronouns he, she, it, they etc.
- Past tense places an action or state of being in past time.
- Carefully chosen vocabulary adjectives, verbs, adverbs chosen must be suitable and appropriate.
- Expanded noun phrases consist of a determiner, adjectives and a noun.
- Fronted adverbials are words or phrases at the start of a sentence to describe the action that follows.
- Various cohesive devices to ensure sentences make sense.
- Other cohesive devices include using pronouns to avoid repeating a noun, linking paragraphs effectively.
- Relative clauses are clauses that describe a noun or pronoun and start with a relative pronoun: who, whose, whom, that, which.

Fat Questions

What long lasting impact did evacuation have on young people?

How did the families already living in the countryside feel about evacuees joining them?

The sound collector

A stranger called this morning Dressed all in black and grey Put every sound into a bag And carried them away

The whistling of the kettle The turning of the lock The purring of the kitten The ticking of the clock

The popping of the toaster The crunching of the flakes When you spread the marmalade The scraping noise it makes

The hissing of the frying pan The ticking of the grill The bubbling of the bathtub As it starts to fill

The drumming of the raindrops On the windowpane When you do the washing-up The gurgle of the drain

The crying of the baby The squeaking of the chair The swishing of the curtain The creaking of the stair

A stranger called this morning He didn't leave his name Left us only silence Life will never be the same

<u>Questions</u>

- 1) When did the stranger call?
- 2) Which two words rhyme in stanza 3?
- 3) Find a synonym for 'blubbering' in stanza 6.

4) How do you know the writer was eating breakfast when the Sound Collector arrived?

5) Apart from cooking breakfast, how do you know that other things are happening in the house?

6) The last line of the poem says 'Life will never be the same'. Explain why.

7) Why do you think the poet uses the word 'drumming' to describe the raindrops?

Deepen the moment

Imagine the Sound Collector came to the classroom. What sounds would he take? Try to word your responses in the style of Roger McGough's poem.

English lesson 2: Grammar

To understand the difference between prepositions and subordinating conjunctions.

In this lesson, you will be learning about the similarities between prepositions and subordinating conjunctions and how one word can have two functions.

A subordinating conjunction will have both a **subject** and a **verb** following it, forming a subordinate clause, e.g.

The sentences below are all missing a preposition. Choose a preposition from the box below to complete each sentence so it makes sense.

on	in honour of	inside	at	Due to
under	across	In summer	before	through

- 1. "Dinner's ready!" said dad as he placed the pizza ______ the table.
- 2. Daniel always goes to breakfast club ______ school starts.
- 3. You have a doctor's appointment ______ 4 o'clock.
- 4. ______ the horrible weather, the BBQ was cancelled.
- 5. _____, we went on holiday to Greece.
- 6. Lucy hid ______ the wardrobe when they played hide and seek.
- 7. Ben finally found his missing toy; it was ______ his bed the whole time.
- 8. They held a party ______ the Queen's Jubilee.
- 9. Courtney had to squeeze ______ the crowd of people to get to her friends.
- 10. Micheala, my best friend, lives in a house ______ the road from mine.

	S
Some words can act as more than one class, depending on how they are written in a sentence. There are a number of words that can be either	
prepositions or subordinating conjunctions. These are:	A BUS A
after before until since as Remember 'A BUS A'!	Twin kl

E.g – The word before can be a preposition and it can also be a subordinating conjunction.

preposition

- Before sunset, the children played outside 1.
- You must tidy your bedroom before you have your 2. tea. Subordinating

preposition

conjunction

1. You must follow the instructions after me.

2. You can play with your friends after you have finished your tea.

> Subordinating conjunction

<u>Remember the rules to help you decide:</u>

A subordinating conjunction will have both a subject and a verb following it, which forms a subordinate clause.

You must tidy your bedroom before you have your tea.

If you see one of the five prepositions in the list above (A BUS A) with a noun (with or without added determiners or adjectives before it) then you have a prepositional phrase.

Before sunset, the children played outside.

Task 2

Tick the correct box to identify if the underlined word has been used as a subordinating conjunction or a preposition.

	Subordinating conjunction	Preposition
I ate dessert <u>after</u> I had eaten		
my chips.		
No one is allowed in <u>after</u> 7		
o'clock.		
He watched it <u>after</u> his		
dinner.		

	Subordinating conjunction	Preposition
I walked <u>until</u> I found a river.		
The flowers bloomed <u>until</u> the cold autumn weather came.		
His shift doesn't end <u>until</u> the evening.		

	Subordinating conjunction	Preposition
Nobody can leave <u>before</u>		
Wednesday.		
It was taken <u>before</u> they saw		
it.		
Before she could shout, he		
had fallen over it.		

Tick the sentence below that contain a preposition (check they're not conjunctions).

Mandy closed the door before the hippo entered.

He wasn't going to wait around since he thought she wouldn't come.

They hid under the large kitchen table.

You need to be there before bedtime.

Deepen the moment

Using any of the following words

as before until since after

Create two sentence, one where your chosen word is used as a subordinating conjunction and one where it is a preposition.

English Lesson 3:

To use a range of verbs, adverbs and adjectives to create a mood and atmosphere.

Last week, you planned and drafted your opening to your narrative. Today you will focus on the build up to your story focusing on a range of precise verbs, adverbs and adjectives. We will be using these skills when drafting our build up and dilemma.

WAGOLL – An Evacuee narrative

I had my 12th birthday during October 1940, which was quite annoying as World War 2 had peaked then. I was tall and matured for my age and had just got my hair cut and curled to match the latest craze. My father was out fighting at war, my mother had been fretting since the war had been announced and my whiny sister. Sally was full of tears. Life was dire, rationing was tedious and half the time we were terrified a bomb would drop. We lived in a two-room flat in London, a grimy old place full of cobwebs. I, Jane Fouler, was the one taking care of my sister, and I was the one who collected food, and washed our scarce amounts of clothes and I had had quite enough of this war business.

"Sally!" I hissed, grabbing the wailing three-year-old " Under the table, NOW!"

In the distance, a loud bomb dropped and that shut her right up. Mother was already under there, hiding and rubbing her tired eyes.

"Can they not wait 'till mornin'?" She grunted. I checked the clock. The time was 2am.

Sally only began spluttering and crying again. Truth be told, I felt like bursting into tears too, but I knew I had to be the strong one. The war was like a heavy weight on my back, a depressing cloud that fell everywhere making even the happiest things seem dull. I felt my limbs loosen, my eyelids fall and I fell into a deep sleep. I dreamt of the war, Hitler taking Mother and Sally, me being left in a bomb filled London while having to watch everyone and everything I knew be destroyed. I woke with a start and saw Mother in some sort of brown factory uniform.

"Mum? Wha-" I began.

"No time, new work gotta dash! Look after Sally for us! Good girl! bye!" She blurted, before running out the old red door.

I went to go check on Sally. She was in the bed-sofa-chair asleep. It wasn't her turn to sleep in it, but in fact mine, but, I had fallen asleep on the floor, and I didn't really like the bed, it was quite uncomfortable, a lumpy mattress on a few lopsided pieces of wood. I peered over at her, crying in her sleep as per usual. I shook her scrawny arms and with an eye-rub she sat up.

" I WANT MUMMY!" she wailed, sniffing and spluttering.

"She's not 'ere so tough. We aint got note for breakfast yet, so don't tell me yur 'ungery. We have a sandwich to share for lunch. Bread's gone stale like." I grumbled.

I went to check my draw in the shared set of them. I wanted to save my best for best, and my only other blouse and skirt were dirty, so I just changed my underwear, not my clothes. Sally had three clean outfits. I passed her a pink dress with a rip in the hem and a small stain on the back.

"Get changed intu this." I murmured.

We staggered through the day in misery, I tried passing the time by teaching Sally maths, but I hardly knew any either, so the whole thing was just a waste of time. Mother came back by half eight, in a tired mess.

"Girls, I've decided, 'cos of war and current situation..." she began.

My heart thumped, I knew what was going to come next...

"... you'll 'ave to go. Countryside's safer." She finished.

I sniffed and nodded, going to pack my bag, poor Sally did not know what mother was on about and burst into confused tears. I whispered instructions into her ear, and we miserably packed. I packed all my clothes (2 outfits), A picture of mother, one pair of stockings and my two pairs of knickers. Sally packed her clothes, her three pairs of stockings and three pairs of knickers, a grubby teddy and her lucky sixpence.

We both slept on the floor that night, curled up into a blanket. There were bombs falling like pennies from a jar outside, and as much as I hated to admit it, I knew it was necessary for us to evacuate. We woke up early, and were instructed to where our best clothes for today. I put on my white and blue spotty blouse and black skirt- the only things I owned that were not completely too big or small or stained. Sally's outfit was much too big, a ruffled white lace with teal beads lining the waistband.

Mum got up, though it caused her back great pain to take us to the station. Sally and I slung our tearing bags over our shoulder and walked to the station 5 miles away. It was busy- much busier than I'd imagined. There were poor children who were starving, rich children crying because their mother only packed 46 pairs of shoes instead of 50, and a few middle-class children looking lost. Most mothers stayed with their child, but ours left us at the entrance, with just a hug and a kiss

After a while of yelling and squirming, we got inside the train. It was definitely not first class. It was a cabin, smelling of old rotting wood. A shiver billowed up my spine as the train set off. Sally clutched my sweaty hand tighter. The train journey seemed to last forever, and I wondered what mother was doing, I knew the reason she left us at the entrance: she was scared of seeing us leave on the train. It was so big, unworldly and some may say unsafe. I looked out the window, fields and fields stretched as far as the eye could see, and after what seemed like days, we arrived at a small village. Sally and I tottered right out the door with other groups, to a strange 41

building, full of all the village members. We sat on a bench that stretched across a long wall. I watched a group come our way, then another, and another. One wanted me but not Sally. Another wanted Sally and not me. The rest stuck their nose up, until Mrs Hawthorne came along. She was a kind old lady, with grey hair tied in a bun and wearing a pink flowery dress.

"My goodness!" She cried " Look at you two! I must have you!"

I looked around to see if she was talking to anyone else, but there was only two other people who were quite far from us.

"Here," She said, fetching two slices of apple pie from a paper bag" Have one eachyou're practically starving!"

We gobbled up our slices, and left with this lovely lady. Her house was made of stone, with a hay roof she explained was thatch. The door was blue and the windows were a pristine white. The garden was full of flowers and trees, and there was a washing line full of clean clothes surrounding it. Inside, there was a warm fire flickering in a heavily decorated kitchen. I hung mine and Sally's bag on a hook and sat by the blazing fire. This was going to be our new place to call 'home'

Use the WAGOLL to mind map as many powerful verbs, adverbs and adjective which can be used in your narrative draft on Thursday and Friday. Use a thesaurus to uplevel your vocabulary choices. Think about how characters were feeling, what you could hear, what is going on around you.

Verbs (action words)

catapulted darted investigated roamed questioned scuttled thumped surrounded

Adjectives (describing words)

dire tedious fearful dangerous determined brave relentless

Adverbs (tell us when, where and how)

unbelievably swiftly impatiently briskly afterwards in the distance

Now, using your mind map, develop your chosen vocabulary into structured sentences which you will be able to use in Thursday's and Friday's writing

e.g.

catastrophic - In the distance, the catastrophic effects of the air raids could be heard.

surrounded - The prospect of death surrounded us like a dark cloud.

thumped - Her heart thumped out of her chest.

Deepen the moment

Use a thesaurus (either a book thesaurus or online) and improve some of your verb choices.

Write down the changes you have made.

e.g.

throw - catapulted

walked - roamed

English lesson 4: To draft the build up of my narrative.

During today's lesson, you will be writing the build up part of your evacuee story. You will be using your plan and your existing knowledge and understanding of evacuees based on all of your learning so far this term. Remember to use precise adjetives, verbs and adverbs in your sentences.

Task:

Your build up should include a detailed description of the impact of the air raid on the characters in the story

children live in London. The year is 1940 (Autumn)

return home.

English – Writing a narrative based on evacuation.

Context: To write a narrative using previous historical knowledge about evacuation in World War 2. Using ideas and thoughts from the canon text 'Goodnight Mister Tom'

Year 5 VIPs for writing a narrative

- Third person is the use of the pronouns he, she, it, they etc.
- Past tense places an action or state of being in past time.
- Carefully chosen vocabulary adjectives, verbs, adverbs chosen must be suitable and appropriate.
- Expanded noun phrases consist of a determiner, adjectives and a noun.

WAGOLL – You may wish to use the WAGOLL (below) to help with your build up:

We staggered through the day in misery, I tried passing the time by teaching Sally maths, but I hardly knew any either, so the whole thing was just a waste of time. Mother came back by half eight, in a tired mess from working herself tirelessly in the factory..

"Girls, I've decided, 'cos of war and current situation..." she began, sighing and rubbing her eyes.

My heart thumped, I knew what was going to come next...

"... you'll 'ave to go. Countryside's safer." She finished.

I sniffed and nodded understanding why. Reluctantly I shuffled off to pack my bag, poor Sally did not know what mother was on about and burst into confused tears. I whispered instructions into her ear, and we miserably packed. I packed all my clothes (2 outfits), A picture of mother, one pair of stockings and my two pairs of knickers. Sally packed her clothes, her three pairs of stockings and three pairs of knickers, a grubby teddy and her lucky sixpence.

We both slept on the floor that night, curled up into a blanket. There were bombs falling like pennies from a jar outside, and as much as I hated to admit it, I knew it was necessary for us to evacuate.

Deepen the moment:

Can you improve your sentence openers by using a range of adverbial openers and include simile in one of your sentences

English lesson 5: To draft the dilemma of my narrative.

During today's lesson, you will be writing the dilemma part of your evacuee story. You will be using your plan and your existing knowledge and understanding of evacuees based on all of your learning so far this term. Remember to use precise adjetives, verbs and adverbs in your sentences

Task:

Your dilemma should include a detailed description of how the characters are feeling about potentially not seeing their parents for a long time.

Deepen the moment

Can you include a rhetorical question to show

what the children may be thinking?

e.g. was everything going to be ok when they left?

Reading for Productivity: Music Lesson 1

Music in World War 2

In the early 20th century, most people still consumed music by watching performances in music halls, while the middle class and upper-class people who could afford music lessons would buy sheet music to perform at home.

By World War 2, however, radio had become popular. Most households had one, creating a sense of community as families huddled around to listen to popular music playing alongside news broadcasts and alerts about the war. Artists were encouraged to produce uplifting music to support the troops and keep public morale up. Record players became more affordable around this time as well, meaning people had more access to music at home. Going to the cinema was also popular, and just like now, film soundtracks frequently became hits.

Second World War Singers

Jazz, swing and big band were the main styles of music during World War Two. Vera Lynn, known as the "Forces' sweetheart", was very popular, while artists like Bing Crosby and Doris Day were also well-known. Performers from other areas of the arts turned to singing, with comedians like Arthur Askey and Flanagan and Allen especially popular for light-hearted tunes which poked fun at the Nazis. Actress Marlene Dietrich even started singing, recording anti-German songs despite being born in Germany

Songs from World War Two

World War 2 songs were written to keep people's spirits up, and had lyrics focusing on the hope of better times to come, like *White Cliffs of Dover*, which says 'There'll be love and laughter and peace ever after, tomorrow when the world is free'. Others, like *Pack Up Your Troubles*, talked about the need to stay strong through tough times. Many others discussed reunions with loved ones when the war was over. *We'll Meet Again* by Dame Vera Lynn, with its chorus of 'We'll meet again, don't know where, don't know when, but I know we'll meet again some sunny day', is a good example.

<u>Year 5 Questions</u>

1. In the early 20th century, how did people listen and access music?

2. What technological advancement meant that families felt a 'sense of community'?

- 3. What were the main styles of music during World War Two?
- 4. Why do you think Flanagan and Allen's songs were popular?
- 5. What was the main reason for World War Two songs being written?

6. What was the main message from the famous song by Vera Lynn, 'We'll Meet Again."?

Deepen the Moment:

Research and select a song which captures the sense and importance of community that has been developed during the COVID-19 pandemic.

Justify your reasons for selecting the song.

Click here to listen to Radio 1's Live Lounge Allstars – this was a collaboration of artists who came together to perform the Foo Fighters song, Times Like These, at the start of the pandemic.

Extended Curricular Learning - Music

Monday 1st March 2021 - Activity 1

<u>VIPs/:</u>

There are six main musical periods that can be identified throughout history. Renaissance was the first reported musical period in history. In old French, Renaissance means 'rebirth'. The Baroque period refers to music and composers roughly between 1600 and 1750. A trill is when a musician quickly plays two notes, one after the other. The Classical period refers to music and composers roughly between 1750 and 1827. The piano was used more in classical composition, rather than the harpsichord from he Baroque era. During the Classical period, a larger range of woodwind instruments were included. The Romantic period refers to music and composers roughly between 1827 and 1900. Music from the Romantic era contained emotion, energy and

passion in the pieces

This term we have look and read about several different composers from different periods of music <u>Renaissance</u> Sergei Rachmaninoff <u>Baroque</u> Bach, Handel, Vivaldi <u>Classical</u> Mozart Beethoven <u>Romatic period</u> Tchaikovsky, Chopin

> Today you are going to complete further research and create a short fact file which includes key information about your chosen composer. Find out When and where they were born What music/ songs they are famous for What instruments they used in their compositions What period their music was from.

You can present your factfile creatively, or you can use the layout on the next page

Deepen the moment...

Compare the lives of two composers from different periods

Reading for Productivity: Geography Lesson 2 – Fairtrade

FAIRTRADE FLOWERS

Fairtrade means farmers and workers across the world receive better prices for the goods that they produce. There are over 50,000 flower workers working with Fairtrade to get a better deal. They work hard to grow, harvest and pack the flowers so we can enjoy them all year round!

WHERE DO FAIRTRADE FLOWERS GROW?

Almost all Fairtrade flowers come from East African countries including Kenya, Ethiopia, Tanzania, and Uganda. You can also find Fairtrade flower farms in Ecuador and Sri Lanka.

WHAT DOES FAIRTRADE MEAN FOR FLOWER WORKERS?

Working on a Fairtrade certified flower farm has many benefits! Fairtrade have set a minimum wage for flower workers, which means they cannot be paid below a certain amount.

The workers also receive a Fairtrade Premium for every flower stem they sell. This is an extra amount of money that can be used to benefit the whole community. The workers decide together what to spend the money on.

The Fairtrade Standards help farmers to farm in a way that does not harm the environment. Fairtrade flower farms must limit the amount of chemicals and pesticides they use.

Greenhouse gas emissions from growing roses in the Netherlands are 5.5 times higher than Fairtrade roses grown in Kenya!

There are 69 shades of Fairtrade flower available in the UK. What is your favourite colour of flower?

Grace works on a Fairtrade certified flower farm in Kenya. Grace and her community have used the Fairtrade Premium for buying medicine, school fees for the children, and cookers for their homes.

Questions

- 1. How many flowers workers benefit from Fairtrade?
- 2. Name 4 countries in East Africa where you can find Fairtrade flowers.
- 3. What is the Fairtrade minimum wage for flower farmers?
- 4. How do the Fairtrade Standards help to protect the environment?

5. Which country produces less greenhouse gas emissions from the production of roses?

- 🗆 Netherlands
- 🗆 Kenya
- 6. Draw and label three types of Fairtrade flower.

Extended Curricular Learning - Geography - Fairtrade

Tuesday 2nd March 2021 - Activity 2

Reading for Productivity: Science Lesson 3

Friction

When it becomes difficult for an object to freely move across a surface, friction may be the preventing force. **Friction** is the resistance of motion when an object rubs against and acts in the opposite direction of another object. When any two objects rub against each other they cause friction. Friction is a force that holds back another object from freely moving. A simple example are the brakes on a car.

Friction causes a second object to lose energy by slowing its motion. The energy does not disappear, but it changes from moving energy, which is called **kinetic** energy to heat energy or **thermal** energy. When a person rubs their hands together friction is generated and then it turns into heat. This is why cold hands become warm after rubbing them together. This is also called **kinetic friction**.

Friction can be found anywhere objects come into contact with each other. The brakes on a car causes friction between the brake pads and the wheels of the car, allowing the car to come to a stop. A person running on a sidewalk may stop quickly because of friction caused between the bottom of the shoes and the concrete.

However, other variables can lessen the effects of friction. For instance, if the same person running tried to stop on a water-covered path, friction would be less and the runner may not be able to stop as quickly, and in some cases may fall. This is similar to a car trying to stop on an ice-covered road. The friction is still there, but it is much less and may lead to accidents. Also, during rain, there is still friction between the brakes and the wheels, yet if the brakes are wet, the wheels would not be as much in contact with the ground. As a result, cars **hydroplane** when they go too fast on puddles of water.

There are times when friction needs to be prevented so things will move more easily. Lubricants like grease and oil can help reduce friction between two objects. Engines and machines use grease and oil to reduce friction and wear so they can last much longer. Friction can also be reduced by using a ball or wheel on certain objects, which is called **rolling friction**. Changing the types of materials that come in contact with each other is another way of preventing friction. A good example is the use of roller skates on a concrete surface, ice skates on a lake covered with ice, or wearing rubber shoes on a wet path.

Besides **dry friction** as in some of the examples above, there is also **static friction** when objects are not moving such as the touching a metal surface and feeling a shock. When friction involves a fluid or air it is called **fluid friction**. The air

resistance on an airplane, water resistance on a boat, and the slides at water parks are examples of fluid friction.

Finally, the two main factors that influence the total amount of friction include the roughness of the objects' surfaces and the force applied between the two objects. The measure of friction, its **coefficient**, is based on the roughness of the materials that come in contact with each other. For example, concrete on concrete has a very high coefficient of friction, and the Teflon surfaces of pots and pans have a low coefficient because it is a surface where most things do not stick.

In summary, friction is the resistance of motion when an object rubs against and acts in the opposite direction of another object. There are four types of friction which includes kinetic friction, dry friction, rolling friction, static friction, and fluid friction. Common examples of friction are brakes on a car, ice skates, and wearing rubber shoes on a wet surface. Roughness and force of objects are factors of friction, and the coefficient of friction is a measure of how easily one object moves in relationship to another.

<u>Questions</u>

- 1. What is the name of heat energy?
- 2. What type of friction occurs when a person rubs their hands together to produce heat?
- 3. What type of friction occurs when a boat moves along the surface of the water?
- 4. What is hydroplaning?
- 5. What is used to reduce friction?
- 6. What does coefficient friction mean?

Deepen the moment

If you were to design a new gymnastics mat, what material/materials would you use and why?

Extended Curricular Learning - Science - Friction

<u>Wednesday 3rd March 2021 – Activity 3</u>

<u>VIPs</u>⁄

Forces that act upon objects can make them move or keep them still, make them speed up, or slow down.

Gravity is a force that pulls objects towards the center of the Earth.
A newton meter is used to measure the pull of gravity in N (newtons).
The rougher the surface, the stronger the friction.
The force of friction will always oppose the applied forc

Today, you are going to create your own investigation in order to answer the following question:

How does the texture of a surface effect the speed of a moving object.

When planning your experiment, think about these questions:

What equipment will you need? What method will you use? How will you make it a fair test? What is the dependent/independent variable? What is your prediction?

The following video shows how you could set up your investigation https://www.youtube.com/watch?v=NObYMCqjqNo

Once you have completed your experiment, see if you can draw a diagram to represent your investigation .

Deepen the moment

In your own words, describe how friction generated by the interaction between two objets can stop them from moving.

Reading for Productivity: World Book Day

Book Scavenger Hunt

You will need lots of books for this activity! You can play at school, at home, or in a library. Find each of the items from the list below in the books you have. Use the table to record the book you found the item in, the page number, and whether it was a picture or a word, or both. How many can you find?

Item	Book in which it was found	Page Number	Word, picture or both?
Witch			
Gold			
Dog			
Necklace			
Spaceship			
Weapon			
King			
Train			
A mythical creature			
A happy ending			
A surprise			
A mystery			
A moral or lesson			
A character shouting			

WORLD BOOK DAY

Thursday 4th March - Activity 4

World Book Day is a charity on a mission to help change children's lives by making reading together and reading for pleasure a habit for life. Sharing stories together for just ten minutes a day will encourage a love of reading and it's fun for everyone! You can read together anywhere and everywhere, from breakfast to bedtime! In the park, on the train, on the sofa, on a plane – reading and sharing stories can happen anywhere at any time

<u>Create your own story diorama.</u>

Bring your favourite book, or scene from a book alive by creating your own diorama.

A diorama is a miniature, three-dimensional model, usually created in a shoe box, to show important events or scenes from a book. Get creative with materials you have lying around your home.

Here are some materials you may find useful

Cereal box, paper, sellotape, scissors, coloured pencils, card,

Once you have designed and created your diorama, write a short paragraph detailing why you have chosen this book or this scene.

Henry Moore was a British artist known for his sculptures, most of which were made from bronze.

Moore was born in Castleford, Yorkshire. He was the seventh of eight children and his family often struggled for money. Moore won a place at a grammar school, where he developed an interest in art and sculpture in particular. He trained to be a teacher and returned to his own school as a teacher. Moore volunteered to serve in the army and was injured at the Battle of Cambrai during the First World War.

After the war, Moore studied at the Leeds School of Art. While there, Moore became friends with Barbara Hepworth, who would also become a famous sculptor. In 1921, Moore won a scholarship to the Royal College of Art in London.

Moore studied the work of artists, such as Rodin, as well as sculpture from ancient Egypt, the Etruscan civilisation, Africa and South America.

He became interested in a method of sculpting called direct carving, where the artist worked straight on material without using moulds. Marks left from carving tools can be seen on the material.

Large Figure in a Shelter, 1985 - 1986

After art college, Moore won a scholarship. This enabled him to travel around Europe, studying the work of different artists. While travelling, he saw a sculpture from the Mayan civilisation of a figure lying down. This would greatly influence his own work.

Moore began to create semi-abstract figures of humans, particularly of them lying down. Semi-abstract means that although the artist may use shapes or colours that don't physically represent the subject, it is still possible to easily recognise what the art is portraying.

Henry Moore

During the Second World War, Moore created many sculptures. These included 'Women and Children in the Tube', showing people taking shelter during an air raid and 'At the Coal Face: A Miner Pushing a Tub', showing the vital work of miners during the war. Moore worked in stone, bronze and other materials.

Moore married an artist called Irina Radetsky in 1929 and in 1946, Irina had a baby. They named her Mary. The birth of his daughter led Moore to create many sculptures based on a mother and baby.

Moore's work was shown at the Festival of Britain in 1951. This was a celebration of British achievement in different areas.

In 1958, he sculpted a work called Reclining Figure that was displayed at the United Nations building in Paris. At 4.9 metres wide and 2.4 metres high, it was the largest sculpture he ever made. Another of his sculptures, Two Large Forms, was put in the West German parliament building in 1979.

Upright Internal/External Form, 1952 - 1953

In 1977, Henry, Irina and their daughter Mary created a charity called the Henry Moore Foundation. It was created to support artists and encourage education about art.

Moore died on 31st August 1986. His work continues to inspire artists all around the world.

<u>Questions</u>

- 1. What metal does Henry Moore usually use in his sculptures?
- 2. Where was Henry Moore born?
- 3. What happened when he volunteered to serve in the army in the First World War?
- 4. What does the term 'direct carving' refer to?
- 5. Why do you think Moore went travelling around Europe to study art?
- 6. What does the term 'semi-abstract' refer to?
- 7. What were the measurements of Moore's work Reclining Figure?

Extended Curricular Learning – Art

<u> Friday 5th March – Activity 5</u>

<u>VIPs:</u>

Positive space is the space inside an object Negative space is the space outside an object It is balance of positive and negative light (black and white**)**

Positive and Negative space

Possitive space is best described as the areas in a work of art that are the subjects, or areas of interest. Negative space is area around the subjects, or areas of interest.

If you are seeing a vase, then you are seeing the white area as the positive space. The black areas become the negative space.

If you are seeing faces, then you are seeing the black areas as the positive space, and the white area as the negative space.

.Today, you are going to have a go at playing with positive and negative space.

Choose an everyday object like the example below.

Draw the outline shape of a group of objects (the positive space).

Fill the negative space (the space around the objects) with patterns.

Deepen the moment

Consider how shading is used to create tones and apply

it to one of your drawings.

Halfpenny Lane Reading Challenge

We are continuing to run our weekly 'Reading challenge' for all of our children throughout this National Lockdown period. Whilst you are at home, we would like you to continue to read <u>at least 4 times a week</u> and fill in your reading record.

Send us a picture of your completed reading record every Thursday each week on Class Dojo for an extra Dojo point and to be put into 'the reading raffle' for a chance of winning a prize upon our return.

At the end of each week, the names of the winning classes of our reading challenge and the randomly chosen children who have won our reading raffle, will be included in our weekly newsletter and posted on our school Twitter page.

Good luck everyone and continue to read as much as you have been doing! Happy reading!

Halfpenny Lane TT Rockstars Weekly Battles

We are continuing to run our weekly TT Rockstars battles for all of our children in Year 2 to 6, throughout this National Lockdown period. Whilst you are at home, we would like you to continue to go on and access TT Rockstars as much as you can.

Each week we will be able to see how many correct answers each of you have got and which class has won their weekly battle.

An extra Dojo point will be awarded to those children going on and accessing this each week.

At the end of each week, the names of the winning classes and the top three children with the most correct answers across school, will be included in our weekly newsletter and posted on our school Twitter page. Prizes will be awarded upon our return.

Good luck everyone and rock on!
