Waves of Intervention

Pupils may be placed on the Special Educational Needs Register at different stages dependent on their need as per the SEND Code of Practice 2014. Pupils can move through or be removed from the register at any time based on their progress. The emphasis is on outcomes for students and the focus is on what is being offered from the school's own resources to respond to an identified need and to close the learning gap. Schools are required to identify school support as waves of provision – part of a graduated approach to meeting additional needs. Inclusive Quality First Teaching underpins all learning at Wave 1 which is for all students including those with Special Educational Needs. Wave 2 Provision is 'additional to' and usually forms part of small group work interventions for 'some' students. Wave 3 Provision is 'different from' where interventions are on an individual basis.
